

**CITY OF BROOKS**  
**EMPLOYMENT OPPORTUNITY**  
**FULL TIME POSITION**  
**Engineering Technologist (2 positions)**

---

The City of Brooks' Engineering & Property Services Department has an immediate opening for two (2) Engineering Technologists.

Under the general guidance of the Director of Engineering & Property Services, the successful candidate will implement and administer capital works projects, assist the Municipal Engineer in planning and execution of all infrastructure work and provide general engineering duties associated with the City Engineering Department. The Engineering Technologist will work in a team environment providing a lead role in preparation and maintenance of all documents pertaining to Streets/Roads, Sewer and Water Projects within the City. This candidate will also provide construction surveys, and collect as-built records of all construction.

The successful applicant must have completed the twelfth (12<sup>th</sup>) school grade, plus related post secondary courses at an accredited college or post secondary institute or equal. The applicant should also be eligible for certification with ASET/APEGGA, should have minimum 3 – 5 years experience in municipal engineering and infrastructure, and must possess a Class 5 Operator's License. Applicants must be bondable.

The City of Brooks offers a competitive salary and benefit package. Please forward your resume including three work related references to:
